

Apprentice

Geekster | Geekster Coding Bootcamp

- Mastered Data Structures and Algorithms (DSA) by solving 200+ questions on the Geekster platform and actively participating in coding contests.
- Proficient in a wide array of tools and technologies including Java, **HTML5, CSS3, JavaScript, React.js, Redux, Vite.js, Figma, Tailwind CSS, Material UI, Firebase, Git, GitHub, and Vercel.**
- Demonstrated expertise in both front-end and back-end development, with a strong focus on creating responsive and visually appealing web applications while ensuring efficient deployment and version control practices.

Projects

Crypto Analyser Project [\[GitHub Link\]](#)[\[Hosted Link\]](#)

- Developed and deployed a web-based cryptocurrency analysis tool. Utilized APIs to access diverse cryptocurrency data. Implemented real-time data fetching for up-to-date market insights
- Designed an intuitive user interface for seamless interaction with complex cryptocurrency data. Integrated advanced charting libraries for visualizing crypto trends and patterns.
- Tech Stack: **HTML5, CSS3, JavaScript, React.js, Vite.js, Material UI, JS Libraries, Git, GitHub Vercel,** etc.

Warehouse Project [\[GitHub Link\]](#) [\[Hosted Link\]](#)

- Developed a fully responsive Frontend Warehouse Project. I have created this project for management.
- Add features like searching the warehouse, filtering the warehouse, resetting to default, and editing data.
- Tech Stack: **HTML5, CSS3, JavaScript, ReactJS, vite.js, Redux-Toolkit, Material-UI, Git, Git version control.**

GeekFood Project [\[GitHub Link\]](#)[\[Hosted Link\]](#)

- Designed and developed a visually appealing restaurant website using HTML, CSS, JavaScript, and React.js.
- Proficient in developing responsive web applications using React.js. Skilled in creating intuitive user interfaces and implementing state management. Understanding of modern JavaScript ES6+ syntax and best practices in front-end development. Followed best practices in HTML and CSS coding standards to maintain clean, readable, and well-documented code. Employed version control (e.g., Git) for efficient collaboration and code management.
- Tech Stack: **HTML5, CSS3, JavaScript, React.js, React-router, Git, GitHub and Vercel.**

Skills

- **Computer Language:** Java, JavaScript
- **Frameworks / Libraries:** ReactJS, Redux, Bootstrap, Tailwind CSS, Material UI
- **Additional Courses:** Data Structure and Algorithms, OOPs
- **Tools & Technologies:** HTML5, CSS3, Git, GitHub, Vscode and Vercel.

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2019-2023	B. Tech	JNCT College, BHOPAL	8.52 CGPA
2018-2019	12th	MAHARASHTRA BOARD	67.08 %
2016-2017	10th	MAHARASHTRA BOARD	88.08 %

Achievements and Co-Curricular Activities

- Successfully tackled over 70 algorithmic and coding challenges on [Leetcode](#), showcasing proficiency in problem-solving and algorithmic thinking.
- Demonstrated Java expertise by achieving a prestigious 3-star rating on [HackerRank](#), reflecting strong coding skills and mastery of Java programming concepts.
